SMOKE FROM A CAVE.

North Alabama Country Folk in a State of Panic.

Memphis, Tenn., April 21.—For 30 hours dense smoke has been pouring from Fennel cave in north Alabama, sometimes in fountains but steadily volume and at others in great puffs.

The cave, which is four miles southwest of Decatur, began to emit smoke soon after the first seismic disturbance in San Francisco, and the eruptions have increased in volume ever since.

The oldest resident cannot recall such a phenomenon, and the countryside is in a panic.

VERGENNES CITIZENS INCENSED.

Steps Taken Toward Forming Independent Telephone Company.

Vergennes, April 20.—A large and enthusiastic meeting of the patrons of the Champlain Valley Telephone company living in this city and vicinity, was held last evening in the opera house. Thomas Mack presided, and W. C. Poole acted as secretary.

Mr. Mack struck the keynote of the meeting, when on taking the chair he advocated the forming of an independent local telephone company, and at the close of his remarks he was heartily applauded.

The secretary read the list of those who have signed the paper in circulation the past week protesting against a raise of rates from those the New England Telephone company has been making, and pledging themselves to order out their telephones if any raise was made. About 90 names were in the list, representing over 100 telephones and including nearly all the business men of this city.

DENIES VIRGIN BIRTH.

Union College Graduate Held Up by a Presbyter.

New York, April 20.—Henry A. Pearce of Plainfield, a candidate for admission to the ministry, started the members of the Elizabeth presbytery last night by his answers to questions when he was up for examination. He is a graduate of Union College and of Union Theological seminary, and this fact, of course, was shown to the members of the presbytery, and most of the ministers had one or more questions to ask him.

"What was the father of Christianity?" was first asked.

Mr. Pearce said that Joseph was the natural father of Christ. He said further that Christ was born of Mary as Joseph's wife, and not as a virgin, and did not accept him as his chosen son. He declared that Christ had no part in the Trinity before his birth, and that he became one of the Trinity after his crucifixion and resurrection. This, he said, was in accordance with the teaching of the Union Theological college of Poughkeepsie.

After two hours, during which the candidate was put through a rigid examination, the presbytery finally decided to postpone action on the application until June 19, when a special session of the body will be called.

IN DEFENSE OF GORKY.

Will Hotels Move Against Those Court Calls Bigamists?

New York, April 20.—"Now that the hotel proprietors have preserved morality in New York city by refusing to allow Maxim Gorky to be their guest while accompanied by a lady alleged not to be his legal wife, I would ask what attitude they intend to take toward the many hundreds of American men and women who are now living in hotels as husbands and wives when the recent decisions of the United States Supreme court declare bigamists," says Gaylord Wilshire, the Russian novelist's host in this country, in the New York World yesterday.

"And how about Mrs. Grundy? Will society consider them 'conventionally' married, no matter what the law says? Compare their status with that of the Gorkys. Society in Russia considered the Gorkys conventionally married. Count Tolstoi, his wife and the flower of Russia received them without question. Such an idea as a taboo was a thing not dreamed of. The Gorkys had violated no convention; they did nothing that thousands of others were not doing. Whether they have violated the law of the Czar or the church I do not know, and that is not the question, but that they have not offended the Russian Mrs. Grundy is certain.

"Russians cannot get a divorce except by payment of heavy blackmail to the church and licking the dust off the boots of the corrupt Russian priest-hood.

"Hence, when conditions make a separation a necessity, Russian society recognizes it exactly as we have been recognizing our Dakota divorces, and when either party in Russia unites with another union, in the eyes of Russian society is recognized as a conventional marriage as far as their Mrs. Grundy is concerned. The New York hotel man is not their arbiter.

"There is published in this morning's papers a long list of our distinguished citizens who have been put in this list of illegals by this week's decision of our United States Supreme court.

"I would like to ask them and their friends if they are not in a more sympathetic frame of mind with the Gorkys than they were yesterday, or will it be necessary for our hotels to throw them out in the streets of New York to arouse their latent humanity?

"As they belong largely to that class of Americans whose income allows them the privilege of living in Europe, I would like to ask them what they would think if, when they attempted to land at Liverpool on their annual steamer flight from New York, the British immigration commission prevented them from bringing in their women?"

WILLIAMS STOPS HOUSE

No More Unanimous Consent Business

THE MINORITY LEADER

Figures Also as a Peacemaker—A Spirited Word War on Between Grosvenor and Clark Was Adjusted.

Washington, April 20.—Mr. Williams yesterday made good his notice of Thursday and objected to any business except under the rules. The House then resumed consideration of the District of Columbia appropriation bill.

There was another "rough house" in the afternoon, following a declaration by Representative Clark of Florida, that in the discussion Thursday about affairs at St. Elizabeth insane asylum, General Grosvenor of Ohio had declared that he knew nothing about any charges pending against the management of that institution.

General Grosvenor denounced the statement vehemently, declaring that it was "unqualifiedly and, in my opinion, purposely misleading."

The gentleman from Ohio would not make such a statement anywhere else, retorted Clark, white with rage.

After the unparliamentary remarks had been expunged from the records at the suggestion of Mr. Williams, affairs quieted down.

TAFIT HITS WALLACE AGAIN.

At the Crucial Time He Deserted the Government.

Washington, April 21.—Secretary Taft concluded his statement about Panama on inter-oceanic canals Thursday. The most interesting part of the secretary's statement yesterday related to the resignation of John F. Wallace as chief engineer. "Mr. Wallace deserted the government at a time when his presence on the isthmus was indispensable," said the secretary.

"Instead of making abundant provision, as he says, for the preservation of the interests of the government, he utterly ignored these interests, and selected a time for his departure that could not have been more disastrous. The great good fortune which we have had in happening within three days upon Mr. Stevens and securing his acceptance was not due in any way to Mr. Wallace's intervention, and the dangers which were averted by this piece of good luck are not due in the slightest degree to Wallace's care or desire to save the interests of his employer which he had thus deserted."

The secretary submitted correspondence on the subject to show that Wallace "deserted his post." Mr. Taft declared that the canal would have to be built by the contract plan and that tropical or Chinese labor would be necessary.

Franklin Medal for France.

Washington, April 21.—Secretary Root has received the magnificent gold medal struck by order of Congress in commemoration of the 100th anniversary of the birth of Benjamin Franklin. This is to be presented by the secretary today in Philadelphia to Ambassador Jusserand as the gift of the American people to the people of France.

One Philippine Concession.

Washington, April 21.—The Senate committee on the Philippines has agreed to report favorably the House bill extending the Philippine civil service to the coastwise laws to the Philippine islands.

Longworth to Sail June 2.

Washington, April 21.—Representative and Mrs. Nicholas Longworth will sail for England on June 2, returning by way of France on Aug. 28.

Effort to Break Will of \$1,000,000 Failed.

New York, April 20.—The effort brought by his brother, James R. Palmer, and other relatives to contest the will of Francis Ashby Palmer, was dismissed yesterday by Justice Geiger. Mr. Palmer, who was president of the Broadway bank, left about \$1,000,000 to institutions for the training of young men for the ministry.

HOUSEHOLD CARES

Save the Women of Barre the Same as Elsewhere.

Hard to attend to household duties. With a constantly aching back. A woman should not have a bad back. And she wouldn't if the kidneys were well.

Doan's Kidney Pills make well kidneys. Here is a Barre woman who endorses this claim:

Mrs. M. Gambel, 31 Brooklyn street, Barre, Vt., says: "I suffered terribly for two or three years with severe pains across my back and up my side. I had headaches and spells of dizziness and a distressing kidney weakness that compelled me to rise often during the night and thus disturbed my rest. The doctors gave me medicines but I received little benefit until I procured Doan's Kidney Pills sold by E. A. Drown, the druggist. It was only a few days before I could see that they were helping me. The improvement was gradual and as I kept on taking the remedy I became better in every way. My kidneys became normal in action. I can honestly say that I never found anything that proved of such great benefit as Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

BAD BLOW TO REFORM.

Bribery Hinted in Matter of Insurance Amendment.

Albany, N. Y., April 20.—That a death blow at least for the present, has been dealt to insurance reform by Wednesday's vote of the state Senate in killing the publicity clause of the Armstrong committee's bill, is the opinion of those who have been identified with the crusade of the last year against insurance inequities.

Some men flatly declare that bribery has done the work, that the powers in the insurance world deliberately bought votes for large sums.

When Charles E. Hughes, counsel for the Armstrong committee, was asked for an expression of opinion on the Senate's vote, he said:

"The amendment which passed the Senate Wednesday is a most damaging amendment. The claim that it is in the interests of the policy-holders is a shallow pretence, which will deceive nobody. It should be clearly understood by the public that the main purpose of the amendment is to intrude the management and make it more difficult for the

policy-holders to assert their rights." With the galleries crowded with insurance representatives, Senator Armstrong yesterday morning began his fight to save the most important bill of his committee.

A great deal of pressure has been exerted upon Senator Horace White, the author of the crippling amendment, to recede from his position.
